Petronet LNG Limited

SERVICES OFFERED

- LNG Regasification Facilities
- Storage & Reloading Facilities
- LNG Bunkering Facilities
- Gassing up & Cooling Down Facilities
- LNG Truck Loading Facilities
- Other Services

Kochi LNG Terminal is situated in the Special Economic Zone (SEZ) of Puthuvypeen near the entrance to Cochin Port, Kerala.

The jetty facility is designed to receive LNG Tankers of capacity from 65,000 m³ upto 216,000 m³ with possibility to take suitable smaller Ships.

LNG Regasification Facilities

First LNG Receiving and Regasification Terminal in South India with nameplate capacity of 5MMTPA.

Terminal has Two full containment above ground LNG storage tanks of net capacity 1,55,000 m³ each. Terminal operating since August 2013. Supplying R-LNG to nearby consumers viz. refineries, fertilizers.

Storage & Reloading Facilities

LNG Storage & Reload facility is offered at very competitive terms. First LNG Storage & Reload service in South Asia was provided to an international LNG operator in January 2015, such services are now available on regular basis.

Petronet LNG Ltd. can offer Storage & Reload Services on both Short and Long term.

LNG Bunkering Facilities

Kochi LNG terminal offers LNG bunkering services to LNG fuelled vessels. First time launching in South Asia was done at Kochi in February 2015. Close proximity to major international shipping routes makes it a great choice for future generation of LNG fuelled ships.

First LNG bunkering in South East Asia was successfully carried out at Kochi LNG Terminal in February 2015.

Gassingup & Cooling Down Facilities

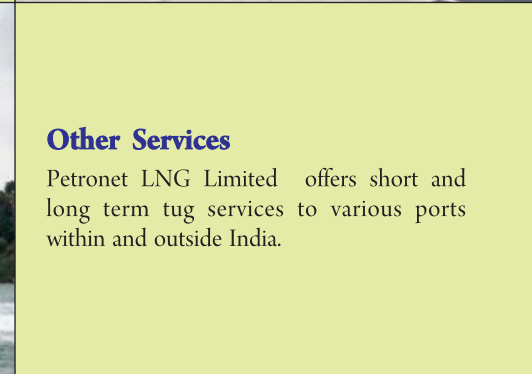

First Gassing Up and Cooling down service in India was successfully carried out at Kochi Terminal in April 2015. Newly-built, on maiden voyage or after dry-dock or completely empty LNG carriers may find it convenient and cost-effective to be cooled-down at our terminal before loading their next LNG cargo.

LNG Truck Loading Facilities

LNG truck loading facility is available in the Terminal for transporting LNG by cryogenic tankers under the trade name "Taral Gas". New customers are keen to use these facilities.

It opens vast opportunities for various consumers not connected to the pipeline.

Other Services

Petronet LNG Limited offers short and long term tug services to various ports within and outside India.
